Privacy Policy & Terms of Service

LAZ GAMES

Effective Date: 01.09.2025

Privacy Policy

At LAZ GAMES, we value the privacy of our users. This Privacy Policy explains what information is collected by the DoganSimulator mobile application, how it is used, and how it is protected.

1. Information We Collect

Our application does not directly collect your personal data. However, some features of the app require access to device permissions:

- **Storage / Gallery Access**: Required by the Native Share plugin to take and share screenshots.

- **Internet Connection**: Required for advertisements (AdMob) and in-game services.

- **Device Information**: Third-party services (Google Play Services, AdMob, Unity Analytics) may collect anonymized device information (device model, operating system version, etc.).

2. Third-Party Services

The app uses third-party services that have their own privacy policies:

- Google Play Services

- AdMob

- Unity

- Native Share (Yasirkula)

3. Use of Data

Collected data may be used for the following purposes:

- To ensure the functionality of the app

- To display advertisements

- To analyze crashes and improve performance

4. Data Security

Your personal data will not be shared with third parties, except for the service providers listed above.

5. Childrens Privacy

This app is not directed to children under the age of 13.

6. User Rights

Users may contact us via email to request deletion of their data.

Terms of Service

- By downloading and using the app, you agree to these terms.

- You are not allowed to copy, modify, or create derivative versions of the app or its source code.

- The app may require an internet connection. LAZ GAMES is not responsible for connectivity issues or data usage charges.

- The app is designed to run only on Android devices.

- LAZ GAMES reserves the right to update, modify, or remove the app at any time.

Changes

This privacy policy may be updated from time to time. Any changes will be posted on this page.
